

**FOR IMMEDIATE RELEASE**

## **GreenDart Awarded Unit Test Contract**

April 15, 2015 – San Pedro, CA

On April 13, 2015 Critical Software LLC awarded GreenDart a contract to provide Unit Test services.

### **Scope of Effort**

Under this contract GreenDart performs Unit Test services associated with General Atomics' Predator development efforts. To achieve significant productivity improvements, GreenDart, through Critical Software, teams up with Vector Software to apply their VectorCast Unit Test automation tool.

"Timely delivery of Predator capabilities is significantly important and, therefore, we are excited to offer advanced Unit Test strategies that reduce overall program test timelines." Mr. Arde Bedjanian, GreenDart president said. "This effort also represents the development of a solid contractual foundation, between GreenDart and its partners, for leveraging these successes towards other testing opportunities."

---

### **About GreenDart**

GreenDart Incorporated is a HUBZone-certified small business which provides responsible and responsive Verification & Validation, Test and Evaluation, and Modeling & Simulation engineering services to government and industry.
